

**Renewable Energy in the Middle East: Enhancing Security
through Regional Cooperation
(2009, Springer Science: Berlin)**

Editors: Michael Mason and Amit Mor

CONTENTS

Introduction

Michael Mason and Amit Mor

Section I: The Security Context

Chapter 1

Mohammad K. Shiyyab

Enhancing security in the Middle East: The challenges of regional cooperation

Section II: Renewable Energy Needs and Strategies of the Region

Chapter 2

Amit Mor, Shimon Seroussi and Malcolm Ainspan

Electricity and renewable energy – Israel profile

Chapter 3

Michael Mason and Mu'taz Al-Muhtaseb

The energy sector in Jordan: Current trends and the potential for renewable energy

Chapter 4

Fadi Comair

Renewable energy profile for Lebanon

Chapter 5

Imad Ibrik

Energy profile and the potential for renewable energy sources in Palestine

Section III: Greening Regional Energy Use

Chapter 6

Hynd Bouhia

Financing renewable energy: the case of Morocco

Chapter 7

Ofira Ayalon

Sustainable 'green' rural municipalities

Chapter 8

Karim Bourouni and M.T. Chaibi

Solar energy for application to desalination in Tunisia: Description of a demonstration project

Chapter 9

Driss Zejli and Abdelaziz Bennouna

Wind energy in Morocco: which strategy for which development?

Section IV: Institutional Aspects of a Regional Energy System

Chapter 10

Mohamad Al-Widyan and Mu'taz Al-Muhtaseb

Institutional aspects of regional energy systems

Chapter 11

Tony Allan

Energy and water: Interdependent production and use, the remediation of local scarcity and the mutuality of the impacts of mismanagement

Conclusion

Michael Mason

Towards a renewable energy transition in the Middle East and North Africa?
